

## FRONT LOAD / REAR LOAD CONTAINERS

Strong designs, durable steel construction, fair pricing, and reliable delivery—giving waste haulers the support they need to grow and stay profitable.

- Standard and Heavy-Duty Models available in 2 through 10 cubic yards
- Fully welded interior for a 100% leak proof container
- BWE's exclusive "Bakers Guard" Protective Coating is applied to the full interior and exterior understructure, delivering extended service life and lower replacement costs.
- Standard Impact Single Wall Lids deliver superior durability and outlast any double wall alternative.
